

ER. SHUBHAM. RAJENDRA. BELDAR. KUMAWAT

+61 433 461 244 | bshubhzz0001@gmail.com | [linkedin.com/in/beldar-kumawat-shubham-75b13622b](https://www.linkedin.com/in/beldar-kumawat-shubham-75b13622b)

Professional Summary

Graduate Civil Engineer with contractor-side experience delivering civil infrastructure projects including roads, drainage, pavements, and concrete structures. Strong capability in site coordination, QA/QC implementation, subcontractor supervision, and project support across multiple work fronts. Experienced in working with multidisciplinary teams to deliver projects in line with Australian Standards and Austroads guidelines. Demonstrates strong work ethic, attention to quality, and adaptability, with a keen interest in large-scale infrastructure, water, and energy projects.

Work Authorization.

- **Current Visa:** Temporary Graduate Visa (Subclass 485) – full work rights until 27 March 2029.
- Holds a valid Australian P2 Licence, White card, WWCC and Photo Id.
- Available for full-time employment, including early starts, shift-based work, weekend work and extended hr.

Technical Skills

- **Civil Construction & Site Engineering:** Roads, pavements, drainage, subdivisions, earthworks, concrete structures, Site coordination across multiple work fronts, Set-out support, level checks, inspections, as-built records, drawing and specification interpretation, Subcontractor, labour, and plant coordination, Austroads pavement construction practices
- **Project Controls & Commercial Support:** BOQs and quantity take-offs, Daily and weekly progress tracking, Cost tracking and basic budget monitoring, Procurement support and material scheduling, Lookahead planning and work sequencing support.
- **Quality Assurance (QA/QC):** Inspection and Test Plans (ITPs), Concrete, asphalt, and aggregate testing, Workmanship and tolerance verification, QA documentation, test registers, NCR support Compliance with AS and Austroads standards.
- **Work Safety:** SWMS implementation, Toolbox talks and site safety inspections, Hazard identification and risk assessment, Environmental and compliance awareness
- **Engineering Software:** AutoCAD, Civil 3D, STAAD Pro, ETABS, ArcGIS, PLAXIS 2D/3D, SAP 2000, Revit, MS Excel, Primavera P6, MS Project, Revit, SketchUp, MS Office Suite
- **Laboratory & Site Equipment:** Total Station, Theodolite, Auto Level: Concrete vibrators, compactors, mixers: Slump cone, core cutter, rebound hammer, CTM, UTM, Bitumen Penetrometer, Marshall Stability, AMBT, Rebound Hammer, Core Cutter, Slump Cone, Jaw Cutter, Hobart Mixer, XRD, SEM, Total Station, Theodolite, Digital Level, Trowel, Concrete Mixer, Vibrators, Compactor, Spirit Level.

Specifications & Standards Knowledge

- **Australia:** AS 3600, AS 5100, AS 1170, AS 1012, AS 1141, AS 2758, AS 1379, AS 3972, *Austroads Guide to Pavement Technology*.
- **USA:** ACI 318, ACI 224, ACI 201.2R, ASTM C33, ASTM C39, ASTM C150 / C595, ASTM D6927, ASTM C31/C31M, ASTM C1585, ASTM C1260, ASTM C1567, ASTM C1778, AASHTO T 283, AASHTO T 303, AASHTO Pavement Design Guide
- **India:** IS 456:2000, IS 383:2016, IS 2386, IS 516:2018, IS 10262:2019, IS 1199:2018, IS 1343:2012, IS 4926:2017, IS 9103:2020, IRC 37:2018, IRC 58:2015, IRC 112:2011, MoRTH (5th Revision).

Professional Attributes

- Effective Written and Verbal Communication, Teamwork and Collaboration.
- Adaptability and Flexibility.
- Problem Solving and Critical Thinking.
- Technical Expertise, Time Management and Safety Awareness.
- Reliability and Accountability.
- Creative, Innovation, Initiative and Continuous Learning.

Professional Experience

Founder and Civil Engineer
Shubham Construction.
Kopergaon, Maharashtra, India.

January 2021 - May 2023

- Delivered 20+ civil infrastructure and building projects: concrete roads, drainage systems, water tanks, percolation wells, public amenities, and residential buildings.
- Managed end-to-end project delivery: design coordination, estimation, budgeting, procurement, site execution, QA/QC, and handover.
- Prepared detailed BOQs, cost estimates, and procurement schedules for multiple sites, ensuring cost control and timely material availability.
- Supervised 100+ personnel, subcontractors, and suppliers; monitored productivity, safety compliance, and schedule adherence.
- Conducted daily site inspections, set-out verification, level checks, and as-built documentation.
- Implemented QA/QC systems: material inspections, concrete/asphalt testing, workmanship checks, and compliance documentation.
- Coordinated soil investigations, foundation recommendations, and pavement layer designs with consultants.
- Applied AutoCAD, Civil 3D, and MS Excel for design, planning, and reporting.
- Ensured OH&S compliance: SWMS, hazard monitoring, safe plant operation, and environmental awareness.
- Delivered projects exceeding AUD \$1M, achieving on-time completion and high community impact.

Assistant Site Engineer

October 2020 - January 2021 K. C.

C. Buildcon. Pvt. Ltd.

Ranchi, Jharkhand, India.

- Assisted construction delivery of a major national highway project under NHAI standards, including earthworks, pavement layers, reinforced concrete structures, and bridge components.
- Conducted daily site inspections, set-out verification, level checks, and preparation of as-built documentation.
- Assisted QA/QC inspections and ITP compliance, including concrete slump, compressive strength, core testing, and aggregate grading.
- Coordinated 5+ subcontractors, plant operators, and suppliers, ensuring smooth workflow and minimal delays.
- Supervised 100+ labour workforce, monitoring productivity, maintaining muster rolls, and enforcing safety compliance.
- Supported procurement planning, machinery deployment, and site logistics, ensuring materials and plant availability aligned with project schedule.
- Prepared daily progress and site reports for project management, including manpower, plant, and material utilization.
- Ensured OH&S compliance: SWMS implementation, toolbox talks, hazard identification, and safe operation of heavy machinery.
- Supported project planning and look-ahead schedules, assisting senior engineers in sequencing construction activities.

Civil Engineer Trannie (Casual)

July 2017 - October 2020

R. B. Associates.

Kopargaoon, Maharashtra, India.

- Assisted in the execution of 20+ RCC, infrastructure, and building projects, including commercial buildings, water supply schemes, and roadworks.
- Prepared 50+ BOQs, 30+ cost estimates, and quantity take-offs, supporting tender submissions, budgeting, and cost control.
- Interpreted construction drawings, communicated design intent to site teams, and assisted in set-out, level verification, and as-built documentation.
- Supervised daily site activities, including labour coordination, material receipt, equipment usage, and QA checks.
- Performed basic surveying using Total Station, Theodolite, and Auto Level, supporting site layout and construction alignment.
- Assisted in QA/QC testing, including concrete compressive strength, Marshall Stability, asphalt compaction, and aggregate grading.
- Maintained laboratory and field test equipment, supporting calibration and safe operation.
- Coordinated with subcontractors and suppliers to ensure timely delivery of materials and services.
- Supported OH&S compliance, including safe work practices, hazard monitoring, and supervision of plant operation.
- Assisted in tender documentation, work orders, and technical submissions, ensuring smooth execution of multiple projects.

Research Experience

Dr. Archana Tanawade - Civil Dept., VIIT, Pune.**Pune, Maharashtra, India.**

- Conducted concrete, mortar, asphalt, and aggregate testing: batching, preparation, controlled curing, compressive strength testing.
- Supported daily laboratory operations, ensuring equipment readiness, specimen traceability, and safe working conditions.
- Performed testing aligned with IS and equivalent international (AS/ASTM) standards.
- Coordinated multiple testing programs, maintaining lab organization and workflow.
- Maintained QA documentation and test registers; mentored junior students in laboratory procedures.

PG Research Assistant.**January 2025 - Present****Dr. Aziz. Mohammad - FEIT, UTS, AU.****UTS TECH LAB, Sydney, Australia.**

- Conduct concrete and cementitious materials testing in compliance with AS and ASTM standards.
- Design and prepare trial concrete mixes with OPC, BCSA, fly ash, and slag for durability and ASR mitigation evaluation.
- Perform fresh and hardened concrete testing: compressive strength, volume change, water absorption, Sorptivity, chloride penetration.
- Plan and manage concurrent laboratory testing schedules, batching, curing, and reporting timelines.
- Maintain QA/QC documentation, test records, and equipment calibration logs.
- Mentor junior students in lab procedures, testing accuracy, and reporting.

Education

Master of Engineering (Extension)- Civil Engineering.**February 2024 - November 2025****University of Technology Sydney (UTS)**

WAM: 80.0 | Research Focus: ASR Mitigation Potential of Ettringite-Based Cement.

Bachelor of Technology - Civil Engineering.**January 2020 - December 2023****Vishwakarma Institute of Information Technology (VIIT)**

Grade: 85.20% | Research Focus: Testing foamed modified asphalt concrete mix.

Diploma - Civil Engineering.**January 2017 - December 2020****S. R. E. S's Sanjivani K.B.P. Polytechnic**

Grade: 94.54% | Research Focus: Utilization of industrial waste in flexible pavement design.

Professional Memberships

- **Affiliated Member:** Indian Concrete Institute (ICI), Indian Roads Congress (IRC).
- **Student Member:** American Society of Civil Engineers (ASCE), American Concrete Institute (ACI), Engineers Australia, Concrete Institute of Australia (CIA), Australian Institute of Building (AIB), Australasian Corrosion Association (ACA), Australian Society of Concrete Pavement, Asphalt Pavement, Association of India, International Society of Asphalt Pavement.
